My name is Shane and I'm a gay, married Christian man. It's not always easy being a Christian, but I have a friend who recently opened up his life to me and it's been wonderful. He's not all gay and he's not all Christian and he's both, which makes him quite a bit different from me. He is the only person I've ever told that I'm a Christian and he's the only one I've told that I'm gay. My friend really encouraged me to start a blog and a ministry of sorts to my friends and some of you too. He wants to talk about his life as an openly gay man who is also a Christian. You have free will and you make choices based on your will. God's character is set. He is what He is and that is who He always will be. When you make choices based on the will of your flesh it will always be against what God is. You know what you like and you know what you don't like. You have the ability to discern things. You have the power to choose, to make a decision and you know when something is right or wrong. That's good. God made you that way. He gave you that power. The problem is, you didn't always make the right choices. You acted on your own will and desires and that isn't always in line with God's will and desire for you. So how do we
